

Dear Doctor,

The California Podiatric Medical Association (CPMA) applauds the efforts of the Los Angeles County Podiatric Medical Society in establishing a statewide purchasing pool for the benefit of all Association members.

We are officially supporting the Members' Purchasing Association (MPA). The program is designed to save you money on the medical and office products you already ordinarily purchase for your practice. The cost savings achieved by joining the program could help defer some or even all of the cost of your CPMA membership. We are also hoping that this cost savings advantage, exclusively for members of the CPMA, provides a stimulus for non-members to join the Association.

Joining the MPA is free of charge and offers easy access to significant savings on products you already use such as: office supplies, medical and surgical supplies, casting materials, DME supplies, diabetic inserts, pre-fabricated and custom braces and supports.

To achieve success *participation is key*.

The website for this program is presently in its final development stage and you will be able to sign up and order directly online for your office supply needs.

In the coming month, you will be invited to participate. For the benefit of the Association, your patients and your bottom line, we highly encourage you to give the Members' Purchasing Association a try!

Any questions about the MPA program can be addressed by contacting Los Angeles County Podiatric Medical Society's Executive Secretary Jan Winter at lacpms@cox.net or by calling (310) 514-9072.

Thank you.
